

Production Planning and Supply Chain Optimization "live"
Alunorf in Neuss (Düsseldorf), Germany • Oktober 7, 2010

Innovative strategies for efficient production and supply chain processes

lower operating costs • shorter lead times • lower inventory levels • improved customer service

Event

Alunorf and Quintiq kindly invite you to a seminar at the Alunorf plant in Neuss (Düsseldorf), Germany, on Oktober 7, 2010. Meet the experts of Alunorf and discuss with us and the other attendees of various industries innovative planning and optimization strategies.

Quintiq at Alunorf

Alunorf, a joint venture of Novelis and Hydro and the world's largest aluminum rolling and remelt plant, achieved remarkable results by planning with Quintiq. Within the last twelve years, Alunorf implemented several Quintiq applications to optimize its entire supply chain. These include scheduling of the different production steps as well as integrated company planning for the whole plant. The optimization of the supply chain takes place with full integration of both suppliers and customers.

With Quintiq, Alunorf has:

- Reduced stock by 33%
- Increased output by 44%
- Improved delivery performance from 40 to 90%

Attendee Feedback

„Thank you very much for this interesting seminar! The presentations and discussions about efficient supply chain and production planning were very valuable for us.“

Annelies Schell, SIG Combibloc (packaging)

„A very successful event, a good performance of Quintiq and Alunorf.“

Klaus-Peter Treche, SCHMOLZ+BICKENBACH (steel)

„I recognized our situation in Alunorf's planning challenges – even though we are operating in a different industry. I also gained new insights through discussions with other attendees.“

Jan Davids, TenCate (textiles)
